

SHUBHAM AUTOMATION PVT. LTD.

Fast Pacing New Proven Development by embracing power of SOLIDWORKS & Cloud Services

Shubham Automation Pvt. Ltd. provides world class solutions in the field of industrial Automation. They have designed and implemented numerous solutions in varied Industries such as Pharmaceuticals, Packaging, Textile, Automobiles, Chemicals and Fertilizers among others.

Challenges:

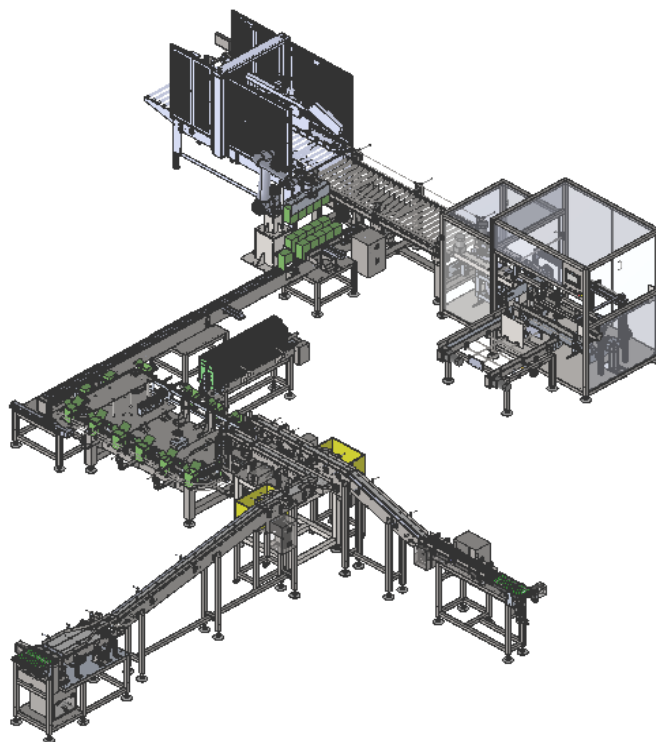

- ❖ Approval process was time consuming as it required approver's presence on premise.
- ❖ Designing by single user and communication updates through email or verbally.

Solutions:

- ❖ 3D Play & 3D Markup have helped in reducing communication gap, quicker approval process which was previously done with chain of emails.
- ❖ Collaboration between team members is not chaotic anymore as they can easily lock assembly, change maturity states etc. from SOLIDWORKS itself. Designers simultaneously work on the same assembly without worrying whether assembly would be updated or not as it always would be.

Results:

- ❖ Timely updates to Management.
- ❖ Reduced Delivery Time
- ❖ Faster New Product Development.
- ❖ Reduced communication gap between designers leading to less errors in design.

"3DEXPERIENCE Platform has made our team productive and the adaptation is gradually scaling to other department of organization."

- Mr. Prashant Patel, Director, Shubham Automation Pvt. Ltd.
