

# Customer Success Story

## Accusharp cutting tools pvt ltd

Accusharp cutting tools provide versatile high quality cutting tools that take care of your industrial needs with safety protocols in place towards workers and machines. in the design, manufacture, supply of special Carbide cutting tools with world class Manufacturing and Inspection facility.

### CHALLENGE'S

- Development of 3D model of the cutting tools for FEA analysis.
- To control the micro geometries which affect the cutting performance.

### SOLIDWORKS PRODUCTS

- SOLIDWORKS Professional (3 license)

### BENEFITS

- Developed 3D model of cutting tools using solid works professional.
- Helpful to design parametric studies.
- Based on the FEA analysis, further changes are made in the 3D geometry
