

Customer Success Story

CYRUS INDUSTRIAL SOLUTIONS PRIVATE LIMITED

Expertise: Specialized in the design, development & manufacturing.

Products: All types of Cranes, fixtures & lifting tackles.

Comprehensive Solutions: Concept to final approved product manufacturing, we provide end to end solutions.

Innovation: Constantly innovating to meet industry demands.

CYRUS INDUSTRIAL SOLUTIONS PRIVATE LIMITED

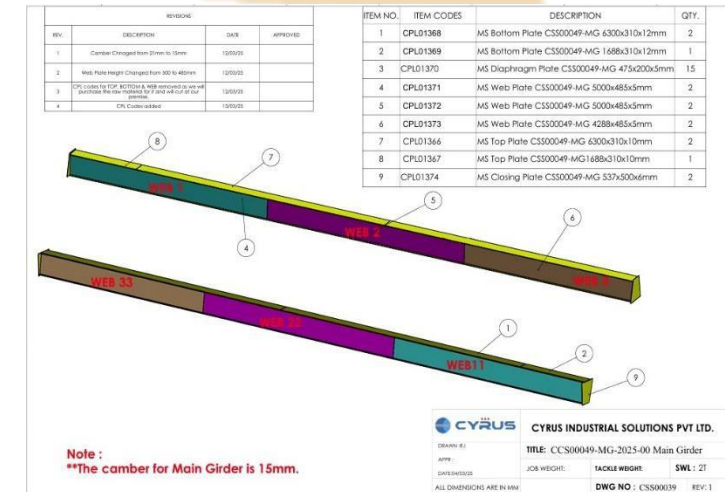

CHALLENGE'S

- Showcasing and presenting the proposal in 2D proved to be challenging.
- Challenges in identifying 3D clashes or interferences between the customer's 3D parts and the crane/lifting tackle machine design.
- Issues were encountered while updating features related to fastener placement in assemblies, especially when modifying the fastener positions.
- Issues with text display, particularly related to rare or special fonts, have been identified.

SOLIDWORKS PRODUCTS

- SOLIDWORKS Professional
- SOLIDWORKS Visualize Standard

Customer Success Story

CYRUS INDUSTRIAL SOLUTIONS PRIVATE LIMITED

BENEFITS

- Assembly and drawing processes achieved a 50% reduction in time.
- SolidWorks CAD functionality enabled an 80% reduction in rework time.
- The issue of software crashes was resolved with the implementation of SolidWorks.
- The Pack & Go option simplifies sharing a single folder containing assembly parts and drawings.
- Eliminating manual entries in the BOM resulted in significant time savings.
- Basic standard visualization is effective for rendering, as it enhances product presentation.

“SolidWorks facilitates efficient 3D modeling and drafting, thanks to its user-friendly design and ease of use, supported by the exceptional assistance of the BEACON Technical Team in overcoming design challenges.”
