SWOOD

SWOOD is a complete solution developed to meet the specific challenges of the woodworking industry.

A COMPLETE SOLUTION

Integrated with SOLIDWORKS, the solution includes specific software for design, production and automation, meeting the needs of woodworkers throughout their projects.

To ensure a continuous flow of information at every stage of the process, our softwares are linked together, making SWOOD a complete solution for wood projects.

SWOOD ECOSYSTEM

Partnerships with leading woodworking companies enable SWOOD to offer the latest hardware, ensure machine compatibility, connect to third-party software, and much more.
